April 21, 2025

Summary

The 50501 rally and march on April 21, 2025 was videoed as marchers passed by a stationary camera, thus allowing counts of individuals as they passed by. The results of two counts of individuals passing out of the frame were 3,734 and 3,753 individuals with an average of 3744 individuals participating in the march.

The same procedure was used for the “Journeying with Immigrants” Rally and March on April 12, 2025. The results of three counts were 612, 590 and 602 individuals participating in the march.

Videos used to enumerate the number of participants can be found at the links below on the Take Action San Diego YouTube channel. The resolution of the videos was compressed to 480p to inhibit the use of facial recognition that could be used to identify individuals.
